PROFILE

Design Engineer with experience building production-ready web applications, dashboards, and design systems. Passionate about creating scalable, polished interfaces where thoughtful design meets clean, maintainable code.

PROFESSIONAL EXPERIENCE

Oceanlab Technology, *Design Engineer Intern* 05/2026 – 09/2026 | Remote

- Designed and developed landing pages, dashboards, and reusable UI components.
- Revamped the Watermelon UI library with improved components, UX, and consistency.
- Built reusable animated components and sections to speed up product development.
- Collaborated with the product team to design, build, and iterate on user-facing features.

APR Hub Technologies, *Frontend Developer Intern* 12/2025 – 04/2026 | Remote

- Built 70–80% of the frontend from scratch using Next.js, TypeScript, and Tailwind CSS.
- Developed responsive dashboards with reusable components, charts, and REST API integrations.
- Refactored and standardized frontend code into a maintainable and scalable architecture.
- Resolved UI bugs, improved design consistency, and enhanced overall user experience.
- Collaborated with backend developers to integrate APIs and deliver end-to-end product features.

PROJECTS

NEGATIV UI, *Next.js, TypeScript, Crypto Libraries, Vercel*

- Built a landing page library with live previews and production-ready code.
- Created reusable UI components and full landing page templates.
- Implemented scalable component architecture for easy customization.
- Added smooth UI animations and interactions using Motion for better UX.

watchMV, *Nextjs, Typescript, Motion, TMDB API, Redux Tool Kit*.

- Built a **Next.js** application with server–client rendering and dynamic routing.
- Integrated the **TMDB API** using **RTK Query** with caching and error handling.
- Developed reusable custom hooks for API logic, filters, and state management.
- Designed and built a fully responsive UI with reusable **Tailwind CSS** components.
- Implemented features like **Kid Mode**, language filters, and localStorage persistence.
- Optimized search performance and SEO using server components and client-side data streaming.

EDUCATION

Ballari Bussiness College, *BCA (Bachelor of Computer Applications)* 2022 – 2025 | Ballari, India
8.5 CGPA

SKILLS

NextJs, Typescript, React.Js, Tailwind CSS, Redux, Motion, Tanstack Query, Zustand, Figma, Jest, Shaden UI, JavaScript, NodeJs, ExpressJs, MongoDB, Prisma, PostgreSQL, Zod, Socket.io, Turbo Repo, Postman
